

Project Engineer

SEMA Construction, INC., **recently named a Top Workplace by the Denver Post**, has an immediate opening for a Project Engineer with a background in heavy civil construction. The Project Engineer will be responsible for projects located within our Rocky Mountain District, based out of a field office in Denver, Colorado Springs or Northern Colorado.

Major Areas of responsibility include:

- Coordinating with superintendents and foremen to ensure project goals and expectations are met.
- Assure project compliance with SEMA's safety policies and OSHA safety standards.
- Must be able to manage changes in scope of work and be proficient in Viewpoint. (Project team will help train in Viewpoint)
- Assist with schedule and coordinate with foreman and field personnel with daily schedules including materials, subcontractors, equipment, quality control, etc.
- Assist project planning to include project definition, scope, resources, and schedule.
- Assist with baseline schedule from the job estimate.
- Processes change orders as needed.
- Track and verify quantities from field staff and subcontractors,
- Assist and coordinate and delegate timely completion of traffic control plans, equipment mobilization, safety plans, haul road plans, erosion control plans, purchase ordering, job costing and other duties as required.
- Coordinate with all subcontractors for timely completion and quality
- Maintain a complete and current record of submittals, RFIs, approvals and resubmittals.
- Maintain a document log for tracking of paper flow on project
- Process and estimate, monthly pay estimates, change orders, request for information and force account items as directed by Project Manger

Requirements

- Construction Management or Engineering degree from a four-year university
- Preferably two to five years of project experience in heavy civil construction
- Excellent verbal and written communication skills
- Proficiency in Viewpoint
- Applicant must be a problem solver and self-starter who operates independently and thrives in a busy environment.

SEMA Construction offers top industry wages and benefits to all employees. SEMA Construction is an Equal Opportunity Employer.
