

Cost Estimating Intern

Company Description

Innovative Contracting & Engineering's (IC&E) mission is to improve the use of alternate delivery methods and be the preferred ICE provider in the US. We are comprised of former contractors that have estimated and scheduled projects prior to becoming consultants. We work together on Design/Bid/Build, Design/Build, Progressive Design/Build, P3, CMAR, and CM/GC projects. IC&E provides expertise in roadways, earthwork, bridges, utilities, flood control, parks and trails, marine, transit, rail, airports, and more. We are focused on providing the most accurate estimates and schedules, while finding ways to build our clients' projects efficiently.
