

Intern

Summary

Our Internship Program offers a hands-on role that integrates your classroom experience with on the job training and guidance. Our interns come out of this program with a clearer idea of their career path through a real-world experience. You will have the chance to work in the field with our superintendents as they interact with sub-contractors, owners and architects. The office experience has you working with Project Managers and provides an understanding of an entire project from the business development effort through the close-out and warranty period.

Our desire is to provide a thorough understanding of the construction process to help narrow your focus on what interests you.

Qualifications

- Pursuing a Bachelor's degree in construction management, engineering or other related field from accredited program.
- A desire to apply your classroom experience in a construction setting.
- Minimum of a 3.0 GPA strongly preferred.
- Prior internship and/or related experience preferred.
- Involvement on campus or in the community.
- Excellent verbal and written communication skills.
- Strong problem solving and analytical skills.
- Demonstrated leadership skills.

Application instructions

- Interested candidates should forward a resume and cover letter to Jamie Walter, HR Manager (jwalter@csigc.com).
