

**Title:** Field Engineer Intern

**Employer:** Hall-Irwin Corporation

**Pay Range:** \$21.00-\$25.00/hour

**Shift:** Part-time, 25-30 hours expected per week

**Location:** Greeley, CO + Front Range job locations

**Reports To:** Project Manager / Senior Superintendent

### **Who We Are:**

Established in 1963, Hall-Irwin delivers commercial construction, land development, and water storage projects across Colorado's Front Range. We are a performance-driven builder focused on proactive planning, risk management, and operational excellence. Our teams do not wait for problems to happen. We identify risk early, align teams around clear plans, and execute with precision to deliver consistent results for our clients.

We have spent six decades building both projects and relationships within our community. Our culture is grounded in ownership, accountability, and continuous improvement, with a strong emphasis on developing our people. Team members are given real responsibility, exposure to decision-making, and the support needed to grow. We believe strong teams, clear communication, and disciplined execution are what separate average projects from exceptional ones.

### **Description:**

The Field Engineer Intern will support job site operations with the goal of learning how work is planned, executed, and corrected in the field. This role provides direct exposure to active construction projects, allowing the intern to see how decisions made in the field impact schedule, cost, quality, and safety. Working closely with a Senior Superintendent and Project Managers, the intern will assist with coordination, documentation, and short-term planning while developing a practical understanding of how projects succeed or fail. This position is designed for individuals who want hands-on experience, take ownership of their work, and are ready to be trusted with real responsibility on active job sites.

### **Duties and Responsibilities:**

- Support daily job site coordination and actively contribute to field operations
- Track and report project progress against schedules, milestones, and short-term plans
- Assist in managing project documentation, including RFIs, submittals, daily reports, and field logs
- Participate in site walks to verify work is aligned with plans, specifications, and quality expectations
- Assist with quantity takeoffs, material tracking, and field verification of installed work
- Coordinate with subcontractors to support workflow, sequencing, and clear on-site communication

- Contribute to short-term scheduling and lookahead planning efforts
- Assist with punch list development, tracking, and project closeout activities
- Promote and uphold job site safety standards and compliance expectations
- Support Senior Superintendents and Project Managers in problem-solving and day-to-day execution

**Qualifications:**

- Currently pursuing or recently completed a degree in Construction Management, Engineering, or a related field
- Strong interest in field operations and how construction projects are executed
- Basic understanding of construction concepts through coursework or prior experience
- Strong organizational skills and attention to detail
- Ability to operate in a fast-paced, team-oriented environment
- Willingness to work outdoors on active construction sites
- Prior internship, summer job, or exposure to construction environments preferred
- Ability to read and interpret construction drawings and specifications
- Proficiency in Microsoft Office (Excel, Word, Outlook)
- Exposure to construction software such as Procore or Bluebeam is a plus

**Hall-Irwin's Core Values:**

- Safety
- Innovation
- Ownership
- Connection
- Fun

**Benefits:**

- Paid time off
- 401(k)
