

Project Engineer

Do you want to join a company that prides itself on personal growth, positivity, work-life balance, accountability and a strong team culture? Are you looking to review, analyze, manage, and resolve field coordination issues? Are you interested in working on unique and exciting projects that will help you build the foundation to grow your career?

About Us.

We are looking for dedicated, hardworking, solution-oriented project engineers to support an up-and-coming General Contractor based out of Denver, CO. Project scopes range from remodels to ground-up work with significant, large, corporate partnerships throughout the US.

What Would You Be Doing?

- Consistent communication amongst project manager, superintendents, subs, client and city.
- Implementing pre-construction quality plan
- Obtaining and maintaining all necessary construction permits
- Working with project manager for fee payments or recurring permit expenses
- Developing and maintaining: material tracking list, project test and inspection listing, non-conformance report
- Managing, crafting, and distributing contract documents
- Establishing handling procedures for electronic documents, including request for information (RFI) and correspondence
- Incorporating all processes and procedures that support the project closeout phase
- Leading all aspects of testing and inspection processes for the construction quality management program
- Managing submittals
- Developing and distributing RFIs and change orders
- Coordinating safety and compliance for all team members

What Do We Need From You?

- Ability to organize and handle multiple project tasks
- Possess basic understanding of construction law and generally accepted business practices
- Teamwork, initiative, communication, problem-solving, and leadership skills
- Microsoft Office, project and pertinent web application skills at an intermediate level
- Demonstrated positive and professional attitude and customer service skills
- Ability to interpret and communicate Logan Pass Construction policies
- Open to change based on diverse input and feedback

- Bachelor's degree in Construction, Civil, or Architectural Engineering or Construction Management, or equivalent experience
- Minimum of two years related experience
- Current driver's license

We are looking for the right project engineers to help take our organization to the next level. If you feel that you may be a good match, please reach out and attach your resume. We look forward to chatting with you!

Salary: \$50,000.00 to \$60,000.00 /year

Benefits: Healthcare, competitive time-off and 401K

If interested, please send your resume to info@loganpassconstruction.com.
