

Project Manager - Commercial Roofing

Salary: 50k-60k a year

Job Location: Denver Colorado

Start Date: Any time between April 22nd to September 30th 2019

Lallier Construction, Inc. (LCI) has been a complete full-service roofing contractor since 1989. LCI is a Tier 1 roofing contractor that focuses on new construction jobs, re-roofs, warranty claims, insurance claims, and government-contracted work. We provide a supportive culture that will help you with growth in our industry. LCI's family type atmosphere makes communication with co-workers easy. Join the LCI family and begin a great long lasting career.

Required:

- Experience installing TPO, PVC, Metal Roof Systems, and EPDM.
- Knowledge of various roof systems, materials, and construction processes.
- Ability to identify, correct and report unsafe conditions according to company and OSHA standards.

Preferred:

- 5+ years roofing production supervision experience
- OSHA and safety certifications is a plus
- Bilingual fluency (English/ Spanish)

Benefits Include:

- Medical, Dental, and Vision Benefits
- Paid Holiday and Vacation
- 401(K) with employer contribution

Work Skills:

Superintendents must exhibit leadership and management skills necessary to meet production goals and maintain seamless communication between field and office employees.

Specific Duties, Functions, and Responsibilities:

- Supervise foremen to lead safe and efficient roof system installations.
- Oversee field staff, assisting foremen with crew leadership.

- Visit job sites daily.
- Conduct or participate in daily safety audits.
- Train field staff in safety (OSHA Standards), work skills, and efficiency.
- Provide ongoing feedback to foremen regarding job performance.
- Resolve complains and grievances; assist with discipline when necessary.
- Conduct annual performance reviews.
- Recommend raises and promotions.
- Ensure production and quality goals.
- Maintain an understanding of contract information for jobs.
- Track labor hours and production against stated goals.
- Schedule materials, equipment, deliveries, and paying special attention to using inventoried materials.
- Monitor material usage, minimize waste, anticipate shortages and order materials as needed.
- Coordinate, supervise and manage subcontractors.
- Monitor quality of installations.
- Deliver excellent customer service.
- Investigate incidents, near misses, accidents, thefts, and provide relevant documents, photos, and assessments to the office.
- Participate in regular review meetings with project managers.
