

Entry-Level Position Available

Title: **Project Engineer**

Reports to: Project Manager

Summary of Position: As a key team member, the Project Engineer is responsible for working with their Project Team(s) to plan and coordinate the successful execution of required project documentation, as well as assist the Project Manager to ensure that the quality, schedule and cost expectations of the project are achieved. The Project Engineer will work with Architects, Consultants, Subcontractors, Clients, and Inspectors to resolve issues in a timely manner and in consideration of the interests of all concerned parties. As is generally expected of all Blach employees, the Project Engineer will work under the guidance of Blach's Core Values, provide excellent customer service to all parties involved in the successful execution of Company projects, and provide oversight of Company jobsite safety policies.

Typical Duties:

Project Preparation and Set-up

- Review project drawings and specifications to learn all the components of the project/s you're working on.
- Collaborate with the Project Manager and Superintendent to conduct a review of project SWPPP requirements, permitting needs, and site logistics.
- Collaborate with Project Team to prepare and distribute bid packages, maintain on-going communication with potential bidders and Project Team regarding bid status, and track and communicate bid results to bidders and the Project Team.
- Collaborate with Project Team to calendar and prepare Agenda and reference documents for Subcontractor Pre-Bid Meetings & Job site visits.
- Collaborate with Project Manager to create and issue Letters of Intent and/or Subcontract Agreements.
- Coordinate with the Project Assistant to order and distribute construction documents.
- Request all Insurances and Bonds, as required by Prime Contract, from Blach's Contracts Administrator.
- Create Visitor Sign-In Logs, Safety Orientation Binders, and coordinate with Superintendent & Safety Team to complete the Site Safety Binder for your projects.
- Conduct Safety Orientations for all on-coming Subcontractor employees, maintain tracking log of participants, and issue dated stickers of completion for hard hats.
- Work with Project Assistant to create files and binders as needed to store project records.
- Create Submittal Register from project specifications and drawings.
- Coordinate with Project Assistant and internal Blach departments for the order and set up of project related items such as copiers, drinking water and coffee, phone and IT services as necessary

Project Construction

- Coordinate with Blach's internal departments to set up project numbers and project information within CMiC, Company p:\drive, Sharefile, and Textura.
- Work with Team to coordinate Subcontractor Kick-Off Meetings and present information to Subcontractors at that meeting.
- Coordinate with Project Assistant to ensure receipt of executed Subcontract Agreements, required Certificates of Insurance, Payment & Performance Bonds, Certified Payroll, and Safety documentation as needed. Review tracking records of such documents at Team

Meetings.

- Learn fingerprinting requirements for each project. Coordinate with Project Assistant to ensure fingerprinting requirements are communicated clearly to the Subcontractors and that they have met those requirements prior to starting their scope of work. Ensure Anne Waltrip has appropriate information for on-going tracking of Subcontractor fingerprinting and DOJ reporting.
- Coordinate with Project Assistant to ensure the distribution of required project information, such as pre-lien information, project directories, memos, and other forms of communications.
- Collaborate with the Project Manager, Superintendent, and Project Assistant to process Subcontractor and Blach monthly pay applications.
- Collaborate with Project Manager to issue, process, and distribute Potential Change Orders, Subcontract Change Orders and Prime Contract Change Orders as requested.
- Review all incoming Requests for Information (RFIs) against Construction Documents and issue or answer accordingly.
- Conduct a thorough review of all incoming Subcontractor submittals against the Construction Documents. Work with Subcontractors, if corrections are needed, and issue to Architect for review. Create submittals for Blach self-perform work as required. To ensure Blach's schedule is met, oversee approval process of submittals and coordinate with project Superintendent to track and prioritize submittals based on product lead time.
- Set up and lead project meetings, as required. Coordinate with Project Assistant to create and compile various reports and information as needed for project meetings.
- Take meeting minutes, process in CMiC, and distribute as required.
- Process Purchase Orders from the Field Team, match with vendor invoices in Invoice Router, and review and pre-approve vendor invoices in Invoice Router as required by Project Manager.
- Take photos of the project's progression through the life of the project and archive electronically.
- Work with Project Assistant to manage and order supplies (snacks, office supplies, safety orientation stickers, etc.) as required.
- Work with Project Assistant to ensure appropriate archiving of project records.
- Keep as-built record drawings and update with applicable RFI responses and ASI/IBs issued by the Architect.
- Work with Blach's Field Teams to resolve issues and address schedule concerns. Walk the site regularly and work with our project Superintendent to familiarize yourself with the coordination and progress of the trades.
- As requested, assist with the training of new/intern Project Assistants and Project Engineers on Blach processes, procedures, and ideology.
- Work with Project Assistant to ensure the maintenance and oversight of all office equipment, such as scheduling copier maintenance & repairs.
- Provide on-going support for Subcontractors, Architect, and Inspectors as needed.
- Greet and assist all visitors to the site to ensure Blach visitor and safety policies are met.
- Perform related work as apparent or assigned by the Project Manager.

Project Close-Out

- Create close out register from project specifications & drawings
- Coordinate with Project Assistant to complete close-out of projects by collecting all required close-out documents, creating binders and electronic records of close-out documents in preparation of turning them over to the Client.
- File appropriate documentation to complete project close-out with DSA & SWPPP as requested.
- Enter substantial completion dates in CMiC to prompt electronic issuances of Subcontractor surveys.
- Coordinate with the Project Assistant and Blach's internal departments to cancel rentals

of copiers, take down IT services, and cancel drinking water and coffee services as needed.

Skills/Qualifications:

- Bachelor's degree
- Excellent Microsoft Office skills (Word, Excel, PowerPoint, Office)
- Exceptional customer service and interpersonal skills
- Extreme attention to detail, highly organized
- Proactive, takes initiative on all projects, possesses a willingness to learn and develop in their professional career
- Excellent written and verbal communication skills
- Problem solver, solutions-oriented, creative

Position Status: Full-time, regular business hours, exempt
