

Front Range Raynor has been specializing in Division 08 [Commercial Overhead Sectional and Coiling Doors](#), Division 11 Loading Dock Equipment, and Specialty High Performance Door Systems across Colorado and Wyoming since [1987](#).

Valued Competitive Advantage:

- We are authorized partners with industry leading, pre-approved manufacturers including but not limited to: Raynor, Clopay, Amarr/Entrematic, Liftmaster, CornellCookson, McGuire, Blue Giant, Hormann, ASI, DBCI, and more.
- We cover the full commercial project process of comprehensive estimating during preconstruction, custom drawings, field verification, and installation during construction, and then project closeouts at the completion of the job.
- We have Factory Trained Employee Technicians, an Experienced Management Team, and Involved Ownership with both Mechanical Engineering and Construction Experience.
- We are investing in internal changes to continue improving our project diligence, our field presence, and automation within our infrastructure to support more growth while remaining committed to the values that have made us successful in this industry.

OPEN POSITION! COMMERCIAL PROJECTS ASSOCIATE/ESTIMATING

This position will work directly within the Commercial Department and with company staff to complete project takeoffs, manage bidding schedules, and fulfill project needs.

POSITION HIGHLIGHTS:

- Provide Detailed Project Takeoffs according to Company Guidelines
- Review Architectural Drawings and Specifications for Sectional, Coiling, Specialty Overhead Doors, and Loading Dock Equipment
- Prepare/Collect Manufacturer Quotations for Project Pricing
- Provide Detailed Bid Follow Ups and Results Consistently
- Maintain Bid Schedule
- Assist with initial project setup and existing project close-out.
- Interact Directly with Managers and Contractors Daily
