

Job Description

Project Engineer for multifamily residential and commercial construction projects in the Front Range. Project Engineers are typically assigned one project at a time and are responsible for assisting the Project Manager and Superintendent with subcontracts, schedules, change orders, RFIs, submittals, job costing, subcontractor performance, quality control, coordination, safety, and inspections. Typical projects range in size from \$5m to \$30m. Deneuve operates primarily in the design/build and design/assist project delivery methods.

Deneuve builds interesting and innovative projects and offers its employees high levels of independence and responsibility. There is opportunity for growth for motivated individuals.

Location

Our main office is in Boulder, the first project would be in Steamboat Springs

Experience

1-5 years

College degree in Construction Management or Engineering is required

Experience with Bluebeam, MS Office, scheduling software, and Autocad/Revit is preferred

Compensation

Salary – Dependent on Experience

Deneuve offers company-paid health insurance, 401k, bonuses, and other attractive benefits.

Company Description

Deneuve Construction Services has been a leader in the construction industry for over forty years. Founded in Boulder, Colorado in 1973—Deneuve has developed an outstanding reputation for quality workmanship, experienced personnel, productive working relationships, and a dedication to excellence.

Deneuve has extensive experience in a wide variety of construction projects around the Colorado Front Range and in fourteen other states. We have built many diverse projects from high rises in the city to projects in remote mountain sites, sleek commercial retail spaces and offices, restaurants, elaborate custom homes and historical renovations. Currently, Deneuve is purposely involved in energy efficient building, affordable housing, multi-family, and mixed-use developments, but our large and diverse portfolio includes everything from multi-million dollar projects to small, personalized renovations and includes all types of construction.

Deneuve specializes in design-build and design-assist projects where our creativity, knowledge, and experience can be used to add value to the design and development process and bring together the talents of all parties involved.
