About Kraemer North America, LLC

Kraemer North America (Kraemer) is a privately held general contractor headquartered in Plain, Wisconsin with regional offices located in Minnesota and Colorado. Established in 1911, our roots were founded in the construction of challenging bridges and highways across the U.S. Today, Kraemer is a full service heavy civil contractor with a national reputation for quality and safety. We serve three primary markets, including: transportation, rail, and marine. Kraemer has been a recognized leader in alternative delivery transportation projects for the past two decades. Kraemer's national alternative delivery group is among those leading the industry in innovative design-build and CMGC owner, design engineer, and contractor partnerships. In addition, we are proud of our standing in the communities in which we live and serve as well as the strong relationships we have built with our clients, teaming partners, subcontractors, and suppliers. In 2014, Kraemer joined the Obayashi global family of companies. This strategic partnership has allowed Kraemer to participate in a greater number of projects, including larger scale civil works projects in Kraemer's core areas and in new areas across the U.S.
