

## Aviation Construction Manager

Jviation, a Woolpert Company is a cutting-edge airport planning, survey, architecture, engineering and construction management firm. Jviation serves general aviation and commercial service airports, state aeronautics departments, as well as airline and related aviation business partners. Jviation, a Woolpert Company was recently acquired by Woolpert, Inc which is certified as an Employer of Choice by Great Place To Work<sup>®</sup>. We believe great companies are built from exceptional people and amazing clients. We are seeking an Aviation Construction Manager in multiple locations (Denver, CO.; Salt Lake City, UT; St. George, UT; Kansas City, MO; Jefferson City, MO)

The Construction Manager will be responsible for overseeing and coordinating various engineering construction projects from start to finish, ensuring that schedules and budgets are followed.

### Responsibilities:

- Collects data and gathers information or documents
- Performs basic computations or analysis
- Applies standard company techniques, procedures, and criteria to perform assigned tasks as part of a broader assignment
- Collaboratively uses judgement to determine adaptations in methods for non-routine aspects of assignments and problem solve in an effective and efficient manner
- Well aware of requirements specified in the Contract Documents and following applicable duties pertained to applied category
- Supervise Contractor's works to achieve construction activities in accordance with the Contract Documents
- Reviews Contractor's submissions
- Provides all necessary on-site direction and issue site instructions while supervising all site inspection staff
- Monitors the quality of materials and workmanship included in the project
- Observes site safety procedures
- Prepares daily and weekly progress reports
- Prepares weekly meeting agenda and compiles meeting minutes
- Assists in the completion of an overall construction report
- Reviews Certified Payrolls for compliance with Davis Bacon Wage Rates
- Coordinates work with engineers, technicians, or administrative staff
- Assists in determining schedule requirements
- Ensures correctness and completeness of as-built drawings

### Requirements:

- Bachelor's degree in Construction Management or Civil Engineering required
- Must have a general understanding and working knowledge of AutoCAD
- Understanding of AutoCAD Civil 3D a plus
- Strong written and verbal communication skills
- Ability to function well in a collaborative, team-oriented environment
- Exceptional multitasking and time management skills
- Field work will be required
- Must be able to pass a background check and drug screen prior to employment

Typical starting salary for this position is \$27.88/hr and is commensurate with experience relative to the position.
