Project Engineer

Company Background

Specialties Contracting, Inc. has been a leading Division 10 subcontractor in Colorado for 18 years. We supply and install a wide range of products to a diverse cross-section of the construction industry. Schools, medical facilities, sports stadiums, office buildings and more. We subcontract to virtually all of the major general contractors in the states of Colorado.

We have worked on some of the largest projects along Colorado's Front Range over the past 18 years. From Medical Center of the Rockies to the new CSU Stadium, to the SVVSD Innovation Center, just to name a few, our expertise with the newest and most innovative products have placed us in a position of trust with the leading general contractors throughout the states of Colorado and Wyoming.

Job Description

Specialties Contracting, Inc. is seeking a Project Engineer to join our team. We are looking for an individual to join our project management group and provide meaningful input to the success of that team. As a Project Engineer, you will work together with Project Managers to facilitate the efficient execution of multiple projects concurrently. Come join us and help us continue to be one of the most successful subcontractors in the state of Colorado.
