

Construction Intern Job Description

Position Overview

Our Construction Internship Program is an immersion into the multifamily construction industry, providing an opportunity to gain hands-on skills while working on Greystar's portfolio of multimillion-dollar construction projects. We have internships available in Denver and Colorado Springs. Submit an application here - [Careers \(myworkdayjobs.com\)](https://myworkdayjobs.com)

Responsibilities

- Reviewing project specifications, blueprints, and building plans.
- Supervising the construction site personnel and contractors, inspecting completed work.
- Participates in project planning meetings and reviews.
- Reviews bids and proposals from contractors and sub-contractors, and change orders.

Qualifications

- Strong organizational, time-management, and project management skills in order to effectively track, report, and manage multiple projects and priorities where meeting deadlines is critical.
- Demonstrated ability to communicate effectively and work in a team environment with a wide variety of people, including owners, architects, subcontractors and business leaders.

Salary Range: \$20 - \$25 per hour
