

Field Engineer- Colorado

Job Description

Our home office is located in Topeka, Kansas. This position is in Colorado. This is an entry-level position that requires a candidate who has knowledge of the commercial construction industry and job site. A Bachelor's Degree in Construction Science is preferred. However, equivalent experience will be considered. This position is responsible for assisting the Superintendent with all job-site activity. Including management of subcontractors, suppliers, and field staff. The Field Engineer prepares for and leads meetings with subcontractors, owners, and architects under the guidance of the Superintendent. Communicating key project information to all involved. The Field Engineer reports directly to the Superintendent. The Superintendent is supported by and supports a Project Manager and Project Coordinator who are both typically off-site.

Candidates must understand the importance of being able to produce a quality product, in a safe manner, and on schedule.

MCP Benefits:

- Competitive Salary
- Health, Dental, and Vision Insurance
- Life Insurance
- 401K Retirement Plan with Company Match
- Paid Time Off
- Holiday Pay
