

Field Engineer

- Full-Time Salaried Position
- **Salary Range:** \$65,000 - \$75,000 (depending on experience)
- **Start Date:** Spring 2023, Internship opportunity during winter & spring break
- **Benefits:** Health, Dental, Vision, LTD, PTO, Bonus, Cell Phone Stipend, and more

Qualifications

- Bachelor's Degree in Construction Mgmt or related field
- Understanding of means and methods, scheduling and cost control procedures, general contract, general conditions, subcontract documents, drawings and specifications.
- Strong coordination, time management, active listening, verbal/written communication skills and critical thinking.
- Must pass background check, MVR review & drug test.

Our Mission

"Continuously refine and provide a higher standard in construction services and client care."

PURPOSE

The Field Engineer is an entry-level, field-based position responsible for the support and execution of an assigned scope for project construction, from early phases of preconstruction through final acceptance of the project by client. The position works closely with Project Engineers, Project Managers and supports Superintendents.

This position is based on the project site. Candidates selected for this role will be assigned to the project site for the length of the project.

DUTIES & RESPONSIBILITIES

- Assist Superintendents on all construction aspects of projects for an assigned scope, from initial notice to proceed through final acceptance by client.
- Actively partner with project team to prioritize safety, quality, stewardship, leadership visibility and communication.
- Constantly solve problems and resolve issues through face to face and personal communication.
- Assist with preparation of daily logs and three-week look ahead schedule.
- Coordinate activities associated with the overall execution of a project on an assigned scope, with oversight from the assigned Superintendent.
- Support project administration to ensure project is constructed in accordance with design, budget, and schedule.
- Coordination of supplier and subcontractor progress on the project.
- Gathering lead times for materials that are to be installed and making sure products are reviewed and approved on time to meet construction schedule.
- Thorough reviews of the submittals sent by subcontractors before sending to Architect for final approval.
- Generating Requests for Information (RFIs) to the design team
- Gathering and distributing the most up to date set of plans and specifications to all subcontractors.
- Assist with obtaining permits before project start.
- Responsible for creating and distributing punch list to all subcontractors ensuring timely project completion.
- Review and compare field installation to contract drawings, approved shop drawings, and submittals for accuracy.
- Compiling all necessary owner & operations manuals & warranties from each subcontractor

DUTIES & RESPONSIBILITIES

as it pertains to the specifications & their specific scope of work.

- Specific duties include, but are not limited to, contract administration, schedule management, preparation of spreadsheets & reports, investigation of non-conformance issues and implementation of corrective measures, risk management, safety, and quality control.

WORKING CONDITIONS

While performing the duties of this job, the employee regularly works on-site at the construction work site where the employee is exposed to moving mechanical parts; high precarious places; fumes or airborne particles; outside weather conditions and risk of electrical shock. The noise in these work environments is usually moderate to very loud.

May perform other duties as assigned. Where applicable, all activities will include disabled and veterans' organizations.

WORKING CONDITIONS

Performance of the required duties will require physical ability to climb permanent and temporary stairs, passenger use of construction personnel hoists, ability to climb ladders and negotiate work areas under construction. Specific vision abilities required by this job include close vision, peripheral vision, depth perception, and the ability to adjust focus. Performing this job requires use of hands to finger, handle, or feel objects, tools or controls, sit, talk and hear, stand, climb, balance, stoop, kneel, crouch, or crawl. Employee must occasionally lift and/or move up to 50 Pounds.
