

Bryan Construction has a long history of providing clients across Colorado, the United States, and abroad with first-class construction services. Bryan Construction began under the shadow of Pikes Peak, growing from Scott Bryan's vision into a company with four locations, hundreds of dedicated employees, and a diverse portfolio spanning the many sectors of the construction industry. Today, Bryan Construction is one of the region's most respected, reliable, and accomplished general building and construction management firms.

Intern Job Description

The Construction Project Engineer internship program at Bryan Construction offers a wide range of experiences. Your duties will be to work with the Project Superintendent and Project Manager on the day-to-day operations and planning needed to run a project. Our diverse work program is a strength of Bryan Construction, and your exposure to these projects will only help in your future endeavors.

As an intern you will provide operational support to multiple projects and carry out project tasks as directed. You will learn how to track RFI's, submittals, ASI's, meeting minutes and any other applicable logs.

Top Five Responsibilities

1. Accuracy/thoroughness/execution
2. Finish early - everything
3. Learn, understand, and apply everything about our field operations
4. Teamwork/team player - support and back-up teammates
5. Good communicator

Primary duties

Work closely with the Project Manager and Superintendent

Receive and distribute information to team members (i.e.: architects, subs, etc.)

Learn plan reading and specification interpretation

Learn various computer software such as:

- Microsoft Office
- Procore
- Bluebeam
- P-6

Learn to understand and manage basic documents such as:

- RFI's
- Posting Addenda
- Creating As-Builts
- Meeting Minutes
- Submittal Review
- Transmittals
- Punch-Lists
- Other duties as assigned

Learn the pre-construction/estimating process

- Quantifying (all scopes excluding MEP and dirtwork)
- Bidders List – solicitation and follow up
- Permitting – plan review

Interns must be enrolled in an engineering degree program by an accredited university or have just graduated from an engineering degree program by an accredited university. Background investigation and drug testing required. This position is temporary, and no benefits are provided. Valid Driver's License required.

Locations

Colorado Springs, CO

Denver, CO

Fort Collins, CO
